

# SISTERHOOD SPEEDWAY 2026

## Race Rules

**Sisterhood Speedway** is all about fun, creativity, and friendly competition. All racers are expected to demonstrate good sportsmanship by cheering for one another, celebrating effort and creativity, and showing respect throughout the event in accordance with the **Girl Scout Law**. We ask that families and spectators model this same spirit by encouraging all participants, supporting every racer, and helping create a positive, inclusive atmosphere where everyone can enjoy the experience.

- **Only one car per racer** may be entered.
- **All cars will be inspected by Race Officials** prior to racing to ensure compliance with the design specification document. The tools used by the Race Officials will be **considered the official means of measurement** (e.g., scale). **Race Officials** reserve the right to disqualify any car that does not meet these requirements.

- **Cars may not be modified** after inspection.
- **If a car experiences a technical difficulty** during a race, a **one-time repair “pit stop”** will be allowed. Repairs must be completed within 5 minutes.
- **If a car leaves its lane** during a race, **Race Officials** reserve the right to rerun the race. If this occurs multiple times with the same car, Race Officials reserve the right to disqualify that car.

Let's have a fun, fair, and friendly race!
